# Solar Air Conditioner

Clean | Sustainable | Super Energy Efficient

Cutting-edge hybrid solar mini-split heat pump air conditioning system operates from solar power during the day and seamlessly draws power from your power company at night or on cloudy days.

Our innovative single-zone, 1-ton system, efficiently cools or heats up to 500 square feet. **Experience the ultimate in energy savings and comfort today!**

- ✓ Install pre-charged AC mini-split units.
- ✓ Variable-speed inverter compressor and supply air fan technology.
- ✓ Ultra energy efficient, SEER2 22.
- ✓ iOS and Android app available for remote smart control via Wi-Fi communications.
- ✓ UL, AHRI, Energy Star certified.
- ✓ 5-year limited warranty.
